

# Pack 194

## Photo Opt-out/Remove from Website Form

**Pack 194 Release of Names and Photos Policy:** Pack 194 will never release full names or address information for any Scouts unless required to do so by law. In any press release, newsletter, pack web page, or social media forum emanating from the pack, no youth member will ever be referred to by any more than first name only or initials and/or a den number included as identification. Please note that Pack 194 does take photos at Scouting events for use in recruitment and advertising purposes at our website, in newsletters, and release to local media outlets in various electronic forms. Since most of these are group photos of Scouts doing activities, it is impossible to exclude any one boy from this process entirely. By participating in pack activities it is likely that all boys will be in photographs included at our website either in the background, from the side, or “in motion.” Via this form, parents have the ability to request to have their boy(s) exposure limited as much as practicable at our website and other online resources, as well as to request specific images be removed from the website. If you have any questions or concerns regarding our policy, please feel free to contact the Cubmaster at: [jreynoldsd13@gmail.com](mailto:jreynoldsd13@gmail.com)
